BRITISH WATERWAYS FISHERIES

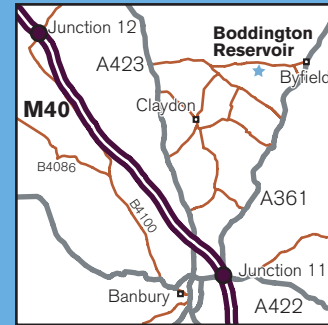

HOW TO GET THERE

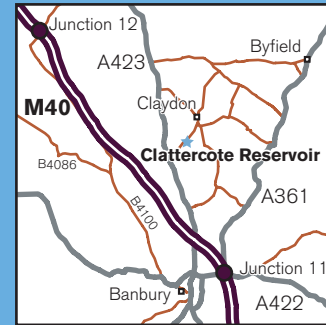

Makin Fisheries

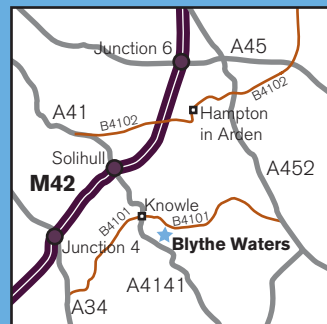

Stockton Reservoir

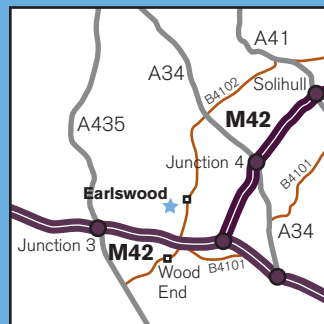

Boddington Reservoir

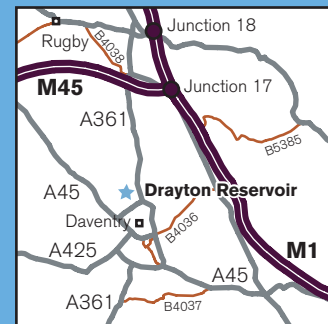

Clattercote Reservoir

Blythe Waters

Earlswood Lakes

Drayton Reservoir

- Supervised children are welcome at all of our fisheries.
- Youth Angling Sessions are arranged during the summer months.

GOING FISHING?

Makin Fisheries

Sponsored by Preston Innovations. This entire fishery has been created for the angler's enjoyment with 18 clean and landscaped pools and over 500 well maintained and reed fringed permanent swims. 4 pools and 200 swims are reserved for pleasure anglers. Specialist company and corporate events can be organised on request.

The lakes are stocked with 14 different species of fish, including chub, barbel, vast stocks of common, ghost, mirror and koi carp.

Each of the 3 phases of the fishery is served by its own car park and toilet. The only rules which need to be observed are barbless hooks, no keepnets, no dogs, except guide dogs, and no night fishing. Pellets, bloodworm and joker are the only bans. Children must be accompanied at all times. Fishing times are 7.00am until dusk.

Please call the bailiff on 07710 175 132 for fishery information. Makin Fisheries, Bulkington Road, Wolvey, Warwickshire.

Stockton Reservoir

Set in quiet countryside, this 4 acre disused reservoir has been transformed into a superb mixed fishery. 66 large timber platforms ensure comfortable, safe fishing and all are equipped with fixings for umbrellas and banksticks.

A large car park is situated adjacent to the fishery. Water depth varies from 3-8 feet which means the fishery lends itself best to float fishing.

The fishery is stocked with thousands of carp, tench, crucian carp and chub. Pleasure anglers regularly catch over 50lbs in a day. Fishing times are 6.00am until dusk.

Stockton Reservoir, off Stockton Road, Stockton, near Rugby, Warwickshire.

Blythe Waters

Blythe Waters offer 5 attractive lakes, plus a 1/2 mile stretch of the River Blythe, set in pleasant rolling countryside, established as a popular match venue, it is also well suited to pleasure anglers.

The fishery has good facilities for disabled anglers, particularly on Cherries Pool, which is next to the main car park. Popular with family groups, Blythe Waters offers concessionary tickets.

Stocked with decent sized carp, bream, tench and roach, also perch, silver bream, gudgeon, golden orfe, daddy ruffe, barbel and a few chub, there are no pike on any waters. The club house is open during summer for refreshments and has toilet and shower facilities. Fishing times are 7.30am until dusk with a night syndicate on Home Pool only.

Please call the bailiff on 07710 175067 for fishery information. Blythe Waters, Hampton Road, Knowle, Solihull.

Earlswood Lakes

Three large reservoirs set in woodland popular with both match and pleasure anglers alike. Engine Pool (open all year) covers 25 acres and has over 100 pegs, 80 of which are large, sturdy timber platforms. Mainly stocked with carp these have now developed rapidly and average over 8lbs. Winning match weights regularly exceed 100lbs with 200lb catches not uncommon. Anglers should be aware that during summer reservoir levels can fluctuate, usually down, and that the platforms become unusable.

Windmill Pool (open all year) is also 25 acres offering over 50 pegs, the main quarry is bream also roach and perch which can be readily caught on the pole. Slightly smaller at 20 acres is Terry's Pool, much of which is surrounded by trees, so fishing is limited to just one bank. Fishing is by season permit only and is subject to the traditional close season. Retained as an unmanaged natural fishery the pool contains good stocks of bream, roach, perch, tench, carp and pike. Some anglers tend to target the large carp, but this is a delightful water to float fish where the tench run to 8lbs. Fishing times are 7.30am until dusk.

Please call the bailiff on 07710 175 067 for fishery information. Earlswood Lakes, Earlswood, Solihull, Warwickshire.

For match bookings for Makin Fisheries, Stockon Reservoir, Blythe Waters and Earlswood Lakes, call 01827 252066.

Boddington Reservoir

This 65 acre fishery is situated near the picturesque village of Byfield, Northamptonshire in a pleasant rural setting, just ten minutes from Daventry. It is heavily stocked with carp between 3-8lbs as well as roach, perch, tench and pike. There are 90 pegs available on the west bank and 30 between the sailing club and far end dam wall.

Boddington is now extremely popular, especially amongst match anglers. Booking well in advance is strongly advised. Fishing times are dawn until dusk, car parking and toilet facilities are available.

Please call the bailiff on 07740 534 891 for fishery information. Boddington Reservoir, near Byfield, Northamptonshire.

Clattercote Reservoir

This picturesque, tranquil mixed coarse fishery is stocked with carp from 2-25lbs as well as tench, chub, perch, bream and a large head of roach to 2lbs. Nets of carp of 100lbs plus are commonplace, with the pole and waggler often more productive than method feeder, and roach weights of 20lbs plus throughout the winter months.

The reservoir is surrounded by 1,260 metres of walkway and staging, providing 122 individual jetty-style pegs. Pre-booked night fishing is permitted at Clattercote and toilet facilities are available. There is also ample car parking.

Please call the bailiff on 07740 534 892 for fishery information. Clattercote Reservoir, near Claydon, Banbury, Oxfordshire.

Drayton Reservoir

Arguably the best match fishery of its type in England, Drayton's match record currently stands at 410lbs and it remains a firm favourite amongst anglers. The reservoir is stocked principally with carp, also perch to 2lbs, roach, tench and pike. **DO NOT** leave your rod unattended – over 100 rods have been pulled in by fish at Drayton! In winter, the pike fishing is excellent, with fish to nearly 30lbs recorded.

The reservoir is surrounded by specially designed walkways and stages with 123 match pegs available. Fishing times are 7.00am until dusk, car parking and toilet facilities are available.

Please call the bailiff on 07889 532 563 for fishery information. Drayton Reservoir, off the A361, Daventry, Northamptonshire.

Boddington, Clattercote and Drayton Reservoirs: for match bookings call 01908 302556 and for the pleasure peg availability 24 hour information line, call 0113 281 6895.
